

Canson[®] Infinity Baryta Photographique II Matt 310

gsm

The mark of
responsible forestry
FSC® C007509

The Canson Infinity Baryta Photographique II Matt paper has an extremely smooth surface with a totally matt finish which, due to the lack of grain interference, accentuates the detail in the printed image. The matt surface also has no light reflection from any viewing angle, ideal for photographers or artists that wish to display their final work.

Although Baryta Photographique II Matt is classed as a digital darkroom photo paper, it should be printed using Matt Black ink as opposed to Photo Black ink. With an extremely high D-Max, or black density, equivalent to that of a digital fine art matt paper, the paper offers exceptional contrast and depth, as well as colours with vibrancy and intensity.

The paper has the same true barium sulphate layer (baryta), as Baryta Photographique II, and benefits from the improved handling of the paper introduced in the second generation of this digital darkroom paper. Baryta Photographique II Matt is made on a traditional photographic alpha-cellulose base which adds to the authentic feel of a darkroom paper.

The Canson® Infinity Baryta Photographique II Matt offers photographers and printmakers a unique aesthetic and feel.

产品型号和规格

致Baryta Photographique II Matt

重量 (g/m ²)	310
厚度 (um)	324
表面触感	超光滑
表面处理	哑光
成分	100% α -纤维素
CIE白度	100, 70
无酸	是
荧光增白剂	少量
干燥时间	即时
防水性	高
不透明ISO2471	99, 40
碱储备	是

其他信息

- Paper base meet the requirement of ISO 9706
 - Contains barium sulphate
 - Optimised for pigmented inks.
Compatible with dye inks.
 - FSC certified
